Page: 1

Compilation date: 23/04/2008

Revision date: 27/04/2015

Sent to: The Proton Group Ltd

Revision No: 3

# Section 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

Product name: PRO-DRI W

1.2. Relevant identified uses of the substance or mixture and uses advised against

Use of substance / mixture: Machine Glasswashing Rinse Additive

### 1.3. Details of the supplier of the safety data sheet

**Company name:** The Proton Group Ltd

Ripley Drive

Normanton Industrial Estate

Normanton

West Yorkshire

WF6 1QT

Tel: 01924 892834

Fax: 01924 220213

Email: mail@proton-group.co.uk

1.4. Emergency telephone number

Emergency tel: 112

Section 2: Hazards identification

#### 2.1. Classification of the substance or mixture

Classification under CLP: Eye Irrit. 2: H319

Most important adverse effects: Causes serious eye irritation.

### 2.2. Label elements

Label elements:

Hazard statements: H319: Causes serious eye irritation.

Signal words: Warning

Hazard pictograms: GHS07: Exclamation mark

| Precautionary statements: | P264: Wash hands thoroughly after handling.                                       |
|---------------------------|---|
|                           | P280: Wear protective gloves.   |
|                           | P305+351+338: IF IN EYES: Rinse cautiously with water for several minutes. Remove |
|                           | contact lenses, if present and easy to do. Continue rinsing.                      |
|                           | P337+313: If eye irritation persists: Get medical advice/attention.               |

| 4.1. Description of first aid m | easures  |
|---------------------------------|--|
| Skin contact:                   | Remove all contaminated clothes and footwear immediately unless stuck to skin. Wash          |
|                                 | immediately with plenty of soap and water.   |
| Eye contact:                    | Bathe the eye with running water for 15 minutes. Consult a doctor.                           |
| Ingestion:                      | Wash out mouth with water. Consult a doctor.   |
| Inhalation:                     | Remove casualty from exposure ensuring one's own safety whilst doing so. Consult a           |
|                                 | doctor.  |
| 4.2. Most important symptom     | ns and effects, both acute and delayed   |
| Skin contact:                   | There may be irritation and redness at the site of contact.                                  |
| Eye contact:                    | There may be irritation and redness. The eyes may water profusely.                           |
| Ingestion:                      | There may be soreness and redness of the mouth and throat.                                   |
| Inhalation:                     | There may be irritation of the throat with a feeling of tightness in the chest. Exposure may |
|                                 | cause coughing or wheezing.  |
| Delayed / immediate effects:    | Immediate effects can be expected after short-term exposure.                                 |
| 4.3. Indication of any immedi   | ate medical attention and special treatment needed   |
| Immediate / special treatment:  | Eye bathing equipment should be available on the premises.                                   |
| Section 5: Fire-fighting meas   | sures  |
| 5.1. Extinguishing media        |  |
| Extinguishing media:            | Suitable extinguishing media for the surrounding fire should be used. Use water spray        |
|                                 |  |

to cool containers.

# 5.2. Special hazards arising from the substance or mixture

Exposure hazards: In combustion emits toxic fumes.

PRO-DRI W

| 5.3. Advice for fire-fighters   |  |
|---------------------------------|--|
|                                 |  |
| Advice for fire-fighters:       | Wear self-contained breathing apparatus. Wear protective clothing to prevent contact         |
|                                 | with skin and eyes.  |
| Section 6: Accidental release   | e measures   |
| 6.1. Personal precautions, pr   | rotective equipment and emergency procedures   |
|                                 |  |
| Personal precautions:           | Refer to section 8 of SDS for personal protection details. If outside do not approach from   |
|                                 | downwind. If outside keep bystanders upwind and away from danger point. Mark out the         |
|                                 | contaminated area with signs and prevent access to unauthorised personnel. Turn              |
|                                 | leaking containers leak-side up to prevent the escape of liquid.                             |
| 6.2. Environmental precaution   | ons  |
| Environmental precautions:      | Do not discharge into drains or rivers. Contain the spillage using bunding.                  |
| 6.3. Methods and material fo    | r containment and cleaning up  |
| Clean-up procedures:            | Absorb into dry earth or sand. Transfer to a closable, labelled salvage container for        |
|                                 | disposal by an appropriate method.   |
| 6.4. Reference to other section |  |
| Reference to other sections:    | Refer to section 8 of SDS  |
|                                 |  |
| Section 7: Handling and stor    | rage   |
| 7.1. Precautions for safe han   | dling  |
| Handling requirements:          | Avoid direct contact with the substance. Ensure there is sufficient ventilation of the area. |
| -                               | Do not handle in a confined space. Avoid the formation or spread of mists in the air.        |
| 7.2. Conditions for safe stora  | age, including any incompatibilities   |
|                                 |  |
| Storage conditions:             | Store in a cool, well ventilated area. Keep container tightly closed. The floor of the       |
|                                 | storage room must be impermeable to prevent the escape of liquids.                           |
|                                 |  |

# 7.3. Specific end use(s)

Specific end use(s): No data available.

9.2. Other information

Other information: No data available.

## Section 10: Stability and reactivity

10.1. Reactivity

Reactivity: Stable under recommended transport or storage conditions.

10.2. Chemical stability

Chemical stability: Stable under normal conditions.

## 10.3. Possibility of hazardous reactions

Hazardous reactions: Hazardous reactions will not occur under normal transport or storage conditions.

Decomposition may occur on exposure to conditions or materials listed below.

Page: 4

### PRO-DRI W

#### 10.4. Conditions to avoid

#### Conditions to avoid: Heat.

### 10.5. Incompatible materials

Materials to avoid: Strong oxidising agents. Strong acids.

### **10.6.** Hazardous decomposition products

Haz. decomp. products: In combustion emits toxic fumes.

### Section 11: Toxicological information

#### 11.1. Information on toxicological effects

#### Hazardous ingredients:

### PROPAN-2-OL

| IVN | RAT | LD50 | 1088 | mg/kg |
|-----|-----|------|------|-------|
| ORL | MUS | LD50 | 3600 | mg/kg |

#### Relevant hazards for substance:

| Hazard                        | Route | Basis                 |
|-------------------------------|-------|-----------------------|
| Serious eye damage/irritation | OPT   | Hazardous: calculated |

#### Symptoms / routes of exposure

Skin contact: There may be irritation and redness at the site of contact.

Eye contact: There may be irritation and redness. The eyes may water profusely.

Ingestion: There may be soreness and redness of the mouth and throat.

**Inhalation:** There may be irritation of the throat with a feeling of tightness in the chest. Exposure may cause coughing or wheezing.

Delayed / immediate effects: Immediate effects can be expected after short-term exposure.

## Section 12: Ecological information

12.1. Toxicity

Ecotoxicity values: No data available.

## 12.2. Persistence and degradability

Persistence and degradability: Not biodegradable.

## PRO-DRI W

**Page:** 6

#### 12.3. Bioaccumulative potential

Bioaccumulative potential: Bioaccumulation potential.

### 12.4. Mobility in soil

Mobility: Readily absorbed into soil.

### 12.5. Results of PBT and vPvB assessment

PBT identification: This product is not identified as a PBT/vPvB substance.

#### 12.6. Other adverse effects

Other adverse effects: Toxic to aquatic organisms. Toxic to soil organisms.

#### Section 13: Disposal considerations

### 13.1. Waste treatment methods

Disposal operations: Transfer to a suitable container and arrange for collection by specialised disposal

company.

**NB:** The user's attention is drawn to the possible existence of regional or national regulations regarding disposal.

### Section 14: Transport information

Transport class: This product does not require a classification for transport.

# Section 15: Regulatory information

## 15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

#### Specific regulations: Not applicable.

# 15.2. Chemical Safety Assessment

### Section 16: Other information

#### Other information
